

Macrophage Cell Therapy To Treat Orthopedic Injury

[View U.S. Patent No. 11,738,046 in PDF format.](#)

WARF: P170220US02

Inventors: Peiman Hematti, Connie Chamberlain, Anna Clements, Ray Vanderby, John Kink

The Invention

An ex vivo generated population of tissue-specific alternatively-activated macrophages and methods of making and using such macrophages for treating orthopedic injury are provided.
