

ULTRASOUND PROBE HAND SHIELD

[View U.S. Patent Application Publication No. US-2023-0389632 in PDF format.](#)

WARF: P220142US01

Inventors: Alejandro Roldán-Alzate, Sylvana García-Rodríguez, Mark Kliewer, Timothy Walker

The Invention

UW-Madison researchers have developed a needle stick shield for use with an ultrasound probe to protect clinicians during needle biopsy. The design does not interfere with current biopsy needles or needle guides. The design allows for use with a variety of ultrasound probes.
