

VAC06

WARF: P230180US01

Inventors: James Willson

The Invention

A UW-Madison researcher has established a cell line, called VAC06, from a discarded tissue specimen of a surgically resected primary human colon cancer. The detailed characteristics of the clinical donor and the VAC06 cell line are described in Dr. Willson's 1984 paper.

Tech Fields

- [Drug Discovery & Development : Disease models](#)
- [Research Tools : Cell lines](#)
