

ORAL BITE BLOCK FOR ENDOTRACHEAL TUBE

[View U.S. Patent Application Publication No. US-2024-0358952 in PDF format.](#)

WARF: P230240US01

Inventors: Joshua Medow, Matthew Roggensack

The Invention

A UW Madison physician and local dentist have designed a specialized bite block device for use with endotracheal tubes. The device protects the front teeth by using the molars on both sides of the jaw to prevent the jaw from closing and compressing the ET tube. This disposable device will come in various sizes.
