

Compositions And Methods For Treating Hyperphosphatemia In Humans

View U.S. Patent No. 8,802,094 in PDF format.

WARF: P07020US

Inventors: Mark Cook, Keith Crawford, Erica Hellestad, Christian Helvig, Martin Petkovich

The Invention

A method for reducing phosphate absorption in a human or non-human animal subject at risk of developing or having developed hyperphosphatemia is disclosed. The method includes the step of administering orally to the subject an anti-intestinal sodium phosphate cotransporter type 2B (Npt2B) antibody in an amount effective to reduce or maintain the serum phosphate concentration in the subject.

Tech Fields

• Therapeutics & Vaccines : Metabolic disorders
