

## Thioesterases And Their Use

[View U.S. Patent No. 10,066,219 in PDF format.](#)

**WARF: P110047US02**

Inventors: James Steele, Mateo Budinich, Tarun Bhowmik, Jeffery Broadbent, Dennis Welker

---

## The Invention

Disclosed are nucleotide sequences encoding thioesterase enzymes, methods for their production, their use in methods to form thioesters, and their use in methods of screening for other wild type bacteria capable of producing said thioesterase enzymes. Also disclosed are compositions comprising thioesters produced by the methods disclosed herein.
