

## Simplified Basic Media For Human Pluripotent Cells

[View U.S. Patent No. 9,279,107 in PDF format.](#)

**WARF: P120133US01**

Inventors: James Thomson, Guokai Chen

---

### The Invention

Fully defined media that support pluripotent cell viability, proliferation, cloning, and derivation, as well as methods and compositions including these media are described. Methods for deriving iPS cells from adult individuals under defined, xeno-free conditions are also described.
