

Hydrogel Compositions For Use In Cell Expansion And Differentiation

[View U.S. Patent No. 9,683,213 in PDF format.](#)

WARF: P150263US01

Inventors: William Murphy, Matthew Parlato, Ngoc Nhi T. Le, James Molenda

The Invention

Hydrogel compositions and methods of using hydrogel compositions are disclosed. Advantageously, the hydrogel compositions offer the ability to promote cellular expansion and/or cellular differentiation of various cells.
