

Generation Of Therapeutic Cells Using Extracellular Components Of Target Organs

[View U.S. Patent No. 11,760,975 in PDF format.](#)

WARF: P160278US01

Inventors: Peiman Hematti, John Kink, Eric Schmuck, Amish Raval

The Invention

The invention relates to an ex vivo generated population of tissue-specific anti-inflammatory macrophages and methods of making and using such macrophages.
