

# **Wavefront Detector for Advanced Imaging**

View U.S. Patent No. 10,620,054 in PDF format.

WARF: P180193US01

Inventors: Zongfu Yu, Soongyu Yi, Dianjing Liu

### The Invention

A wavefront sensor system suitable for integration into an integrated circuit light detector may provide for wave angle sensors having varying functional relationships between the wave angle and signal to provide improved dynamic range. These wave angle sensors may be combined with integrated circuit phase angle sensors for a more complete analysis of the waveform.
