

Compressible Vaginal Pessary For Treatment Of Stress Urinary Incontinence

[View U.S. Patent No. 11,523,935 in PDF format.](#)

WARF: P190117US02

Inventors: Heidi Brown, Rachel Craven, Alexandra Hillman, Julia Handel, Kathryn Hohenwalter, Gloria Sarto

The Invention

The present invention provides a vaginal pessary that offers mid-urethral support and is anchored proximate the cervix by a proximal annulus engaging opposing walls of the vagina and supporting a distal annulus engaging opposing walls of the vagina posterior to the mid-urethra. The proximal and distal annulus are joined by compressible cross rods compressible to reduce a diameter of at least one of the proximal and distal annuli.
