

Disposable Speculum With Adhesive Surface

[View U.S. Patent Application Publication No. US-2021-0220179 in PDF format.](#)

WARF: P200123US01

Inventors: James Berbee, Gregory Rebella, Azita Hamedani

The Invention

A disposable speculum for an otoscope provides an attached forward-facing pressure sensitive adhesive for adhering to and extracting foreign bodies from the ear canal. Attaching the pressure sensitive adhesive to the speculum permits improved control, visualization, and reduced contamination of the pressure sensitive adhesive.
