

HIGH-ACCESS PATIENT TRANSPORT SHIELD

[View U.S. Patent Application Publication No. US-2022-0040020 in PDF format.](#)

WARF: P200297US02

Inventors: Terrence Oakes, Azam Ahmed, Joseph Kiel, Jordan Henry, John Culp

The Invention

UW-Madison researchers have developed a patient transport shield that provides a transparent cover over the patient to provide a patient volume to hold negative pressure. The transparent cover is attached to a support sheet by a resealable pressure-sensitive attachment strip allowing rapid assembly and ready access to the patient.

Applications

Disposable patient isolation tent

Key Benefits

- Easy Storage
- Easy Deployment
- Easy Disposal
- High Patient Visibility and Access
- Compatible with Radiological Scanners
- Can Accommodate Negative Pressure
- Hydrophilic Coating
