

Only virtual field trip opportunities are available for K-2 (select preference of topic when completing application):

**VIRTUAL:** Virtual experiences will take place online using preferred approved platforms. Each workshop is designed to accommodate classrooms participating on individual devices or collectively as a classroom (preferably no more than 50 students per session).

When applying, you will need to enter your preferred topic and will have the opportunity to indicate preferred day/time . Please note that these will be scheduled on a first-come, first-served basis. The Discovery Outreach team will follow up as timely as possible to confirm status and logistics.

## **Spring 2022 (Virtual)**

### **Science Explorers**

Scientists who study nature often explore connections between living things like mosquitos, ticks and humans. In this field trip experience, you'll get to explore nature with the scientist and learn how to use science to explore the world around you.

### **Finding Buried Treasure**

Have you ever wondered how scientists find fossils and use them to learn about life on Earth many, many years ago? In this experience, you'll see how scientists find and unearth bones, carefully clean them, and figure out how to fit them into a larger skeleton. After learning about this process, you'll get to chat with scientists who study geology, fossils and more!
